FIELD #	MDCR FIELD NAME	FIELD DEFINITION	Field Size	Field Type	FORMAT	FIELD REQUIREMENT Bundled Service TO Direct Access Process # 1 Required = R Conditional = C Optional = O	FIELD REQUIREMENT Direct Access TO Bundled Service Process # 2 Required = R Conditional = C Optional = O
1	Sender	Use the standard acronym for your company ~~market participant~~	30	C		R	R
2	Receiver	Use the standard acronym from the EMI for the receiver ~~for market participant~~	30	C		R	R
3	Date MDCR Sent	Date MDCR sent	10		YYYY/MM/DD	R	R
4	Transaction Ref #	Unique transaction identification number assigned by the originator of this transaction	30	C		R	R
5	DASR Tracking #	Unique number assigned by the orginator submitting the DASR (Direct Access Service Request). First 13 (9 + 4) digits are the originator's Duns # followed by 9 user-specified digits. All future communication about this transaction will contain this tracking number.	22	C		R	R
6	ESP	ESP acronym submitted on DASR	30	C		R	R
7	Customer Name	Name of Customer responsible for account	42	C		R	R
8	Service Address	Address of the metering site	50	C		R	R
9	City/Town/ County	City/Town/County in which the metering site is located	30	C		R	R
10	UNI - Universal Node ID	Unique permanent identification number assigned to each service delivery point of the UDC's distribution point	19	C		R	R
11	AZ Meter Number	Unique number assigned by the UDC. Number located on face plate of meter ~~Meter number currently set at service delivery point~~	17	C		R	R
12	UDC Account Number	UDC account number for customer	20	C		R	R
13	Scheduled Date	Date work is to be done. ~~UDC will contact MSP if conflict arises~~ Reciver of MDCR will notify sender if conflict arises.	10		YYYY/MM/DD	R	R

FIELD #	MDCR FIELD NAME	FIELD DEFINITION	Field Size	Field Type	FORMAT	FIELD REQUIREMENT Bundled Service TO Direct Access Process # 1 Required = R Conditional = C Optional = O	FIELD REQUIREMENT Direct Access TO Bundled Service Process # 2 Required = R Conditional = C Optional = O
14	Schedule Notification Type	Schedule Types are as follows: **SI** = Schedule Meter Install **RI** = Rescheduled Meter Install **UI** = Unscheduled Meter Install (Date work to be completed is unknown) **MR** = EMI Response from ESP requesting UDC Metering Selections	2	C	SI RI UI MR	R	R
15	Site Meet (y/n)	Yes value indicates site meet required by UDC, which was indicated on EMI, or MSP is requiring a site meet	1	C	Y or N	R	R
16	Site Meet Time	Schedule time for site meet. UDC will contact MSP is conflict arises. Receiver of MDCR will notify sender if conflict arises.	7		Time will convert to military time i.e. 00:00 space "p". Tab off field to convert 00:00 am or 00:00 pm	C	C
17	UDC Meter or Comm to be installed (y/n)	Yes value incicates UDC has been selected to complete metering work. (**not** applicable in APS or TEP service area)			Y or N	C	
18	Installer UDC or MSP	Enity selected to perform meter installation work (not applicable in APS or TEP service area)				C	
19	Pending Meter Owner	Specific name of new owner				R	
20	ITs Pending Owner	Specific name of new IT owner (if applicable)				R	
21	ITs Purchase Existing (y/n)	Yes value indicates signed Equipment Purchase Authorization (EPA) is attached. No value indicates other metering options have been selected			Y or N	R	
22	Totalized	Yes value indicates signed Equipment Purchase			Y or N	R	

17

	Equipment Purchase (y/n)	Authorization (EPA) is attached. No value indicates other metering options have been selected					
2317	Remarks Add'l Info / Remarks	Remarks related to a specific customer listed above Remarks related to the specific customer, Lost Registration information when UDC meter must be re-installed, etc.	250	C		O	O
